**Chapter 11 Case No.**  
**09-50026**

Response to the **NOTICE OF DEBTORS' 116<sup>TH</sup> OMNIBUS OBJECTION TO CLAIMS**,  
dated December 20, 2010.

I object to this attempt by Motors Liquidation Co. and General Motors to avoid paying any money to retirees who had been promised health and life insurance benefits in retirement. Their request to deny all these claims is unjust and unfair.

Based on our life expectancies, my husband and I will have to pay an estimated \$112,000 in health insurance premiums in order to receive the same level of benefits that we had been promised when I was hired at GM.

GM had several options to avoid bankruptcy. The simplest would have been to reduce salaries and benefits of all employees, executives, and retirees by 25% and allow attrition to reduce the number of employees in the company. This would have let the company stay in business while continuing to offer benefits to current employees and retirees at a reduced level. Instead they chose a different road – termination of retiree benefits, layoff of thousands of employees, multiple plant closings, and declaration of bankruptcy. These steps basically left most GM executives with their compensation and employment intact, and laid the bankruptcy burden onto terminated employees and retirees.

I respectfully ask the Court to order that a reasonable settlement, to be determined by the Court, of my claim and the claims of thousands of others like me be honored by Motors Liquidation Co. and General Motors.
